Introduction:

We are moving on the super high way of the readymade garments as well as fashion world, flourishing a constant stream of new ideas. We try to develop up to date styles and innovative materials to ensure an ever-changing condition.

We have over 15 years of experience in the readymade garments sector. We make most of the production in our own factory and some associated factories near the capital city of Dhaka. With the assistance of our dedicated styling team, we produce an entire collection of high quality fashion (Men's, Women's, Kids, babies and promotional wear).

We have turned ourselves to be competitive and are able to meet the stringent standard quality. Our journey into the garments trade has been established in 1993 as a supplier. Since then the organization being run by high qualified experienced and professional management staff along with sophisticated machineries, latest technology, skilled workmanship, substantial marketing, proper discipline and world standard compliance, consistence effort from everyone has made possible for us to entire in to the competitive horizon of global market.

Our restless effort and dynamic planning, swift response to our customers need and well maintained production schedule have earned us reputed customers in Europe, USA, Canada.

We have a well experienced merchandising as well as quality control team who are developing the company by providing the correct and quick information and weekly report to the buyers. We do the final inspections in 2.5: 4 A.Q.L. standards. If any buyer ask for third party inspection, we also arrange with SGS or ITS for final inspection.

The quality of our fabrics are much better as we use very good quality of yarn, good quality of dyestuffs, good machinery for dyeing and sewing. We never allow the fabrics shrinkage more than 5% except 100% Viscose. For **Work Wear jersey t-shirt we achieved the shrinkage 2.5-3% and Work Wear Polo shirt in Lacoste knit we achieved 3 - 4%(max) shrinkage. For Workwear T-shirt and Polo shirt we are providing the goods with color fastness to wet, rubbing and perspiration scale 4-5 for light and medium color & scale 3-4 for dark colors.**

For your satisfaction about our service, we would like to offer you to visit us in Bangladesh where you can see the facilities and opportunities which you might be looking for. ***Our most of the production units are fully compliance and certified by Oekotex, BSCI as well as Sedex. There are 3 different units which already obtained GOTS certificate. We will be able to provide the certificate for the product if we produce the organic cotton items in these units.***

We shall highly appreciate hearing from you with your enquiry and would be pleased of you could provide us the opportunity to develop a mutually beneficial business relationship with our best service. We are ready to take challenge to meet up the demand for all sorts of high quality garments as per buyer's requirements.

We are also your optimal partner for test orders and try out. We believe this is the best way to know each other.
